DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

Claim 5 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: (1) a second stopper including an endless belt and a first stopper member projecting from the endless, belt such that upon movement and then stoppage of the endless belt the first stopper member becomes positioned at a stop location for stopping a front one of the articles of the predetermined number on the separating conveyor and thereby preventing conveyance of the articles of the predetermined number by the separating conveyor.

Claim 16 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: (1) using a second stopper including an endless belt and a first stopper member projecting from the endless, belt such that upon movement and then stoppage of the endless belt the first stopper member becomes positioned at a stop location for stopping a front one of the articles of the predetermined number on the separating

conveyor and thereby preventing conveyance of the articles of the predetermined number by the separating conveyor, by positioning the first stopper at a stop location.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
